- Complies with ISO 7096 - Laboratory evaluation of operator seat vibration.
- Complies with SAE J2292 - Combination pelvic/upper torso (type 2) operator restraint system for off-road work machines

Safety Warning

- If a seat with an integrated 3-point seat belt is proposed to be fitted to a vehicle which does not have Australia Design Rule 5 certification for this type of seat and seat belt, engineering advice should first be obtained from a person qualified to certify that the proposed installation will conform with all relevant Australia Design Rules applicable to the vehicle type. Failure to ensure that the installation conforms to the applicable Australia Design Rules may result in failure of the seat mounting points in the vehicle in the event of an accident and consequent possible serious injury to the driver.
